I am a first term legislator running for re-election. As your Representative, I am committed to addressing such issues as the environment, crime, education, and affordable health care. In 2003 and 2004, I listened to your concerns and acted quickly. The community asked me to fix the Waimanalo Sewer Plant. This year the legislature appropriated over \$18,000,000 to fix it. The community asked for a new access road to Kailua High. This year we appropriated \$800,000 to build it. The community was concerned about the dangerous curve near Olomana Golf Course. The legislature appropriated \$350,000 to make it safer. Our Schools are in disrepair. This year the legislature appropriated \$5,300,000 to repair Waimanalo and Kailua Schools. The Waimanalo Health Center needed help. This year the legislature appropriated \$150,000 for improvements. In 2003 Homesteaders asked for a new community center. In 2003 the legislature appropriated \$600,000 to build it. People were concerned about the Makapu'u rockslide. In 2003 the legislature appropriated \$6,000,000 to fix it. You tell me what your need done. I will do my best to get it done! I love my community and I love my work. I would be honored to continue to be your Representative in the State Legislature.
